Suicides raise by %25!!!

HUGE progress for Terrasites this year! We're very proud of everyone's work. According to our regular news channels, we're seeing a rise in suicide rates. Though we don't know if it's Terralite or Terrasite rates.... We can assume that these are Terralites. To all of the Terrasites thinking about giving up, DON'T.

We still have plenty of work to do. Remember. He loves you SO MUCH. We cannot give up now. He's counting on us to carry out his plan.

We've asked our wonderful Lilith what her opinions are on the matter.

Lilith: We are doing spectacular work. At this rate, we'll be able to reach our goal within the next decade or so. Keep up the great work! He is waiting for us! He loves you!

25% is NOT a small number, folks!
